

I am incredibly displeased with Sinclair Broadcasting's decision to air an anti-Kerry program, honestly any anti-candidate program, days before an election. I am also surprised at the FCC's apparent inactivity towards said decision. Forcing public broadcasting stations to pander to candidate propaganda is a selfish action. Sinclair Broadcasting is giving American citizens a strong example of why conglomerate media is unfair and wrong. Sinclair Broadcasting uses public airwaves they did not purchase a license to use. As such their responsibility is towards the public and not their own interests. Hence many of the laws set down by our government and enforced by the FCC. I, and I'm sure many others, will be watching to see how this disgraceful situation is resolved. I believe our media ownership laws must be strengthened. In addition to the laws governing propaganda of all kinds.  
Thank you. Mrs. Cristy Holt
